David Sandusky - Lebanon, KY

## TERMS AND CONDITIONS OF SALE

**TIME** – The sale will begin at 6:00 p.m., EST, October 15, 2018.

**BIDDING** – Each animal on which there are two or more bids will be sold to the highest bidder. The auctioneer will settle any disputes as to bids and his decision on such matters will be final.

**TERMS** – The terms of the sale are cash. Checks shall be made payable to “Blue Grass Stockyards of Richmond, L.L.C.”.

**ANNOUNCEMENTS** – Announcements from the auction box will take precedence over printed matter in this catalog.

**CONTRACT** – The above terms and guarantee shall constitute a contract between the buyer and seller of each animal sold.

**LIABILITY** – All persons attending the sale do so at their own risk. Madison County Beef Cattle Association and the Madison County Cooperative Extension Service assume no liability, legal, or otherwise, for any accidents which may occur.

**GUARANTEED BRED** - All heifers are guaranteed bred for thirty (30) days after the sale. The purchaser of a heifer may pregnancy check within thirty (30) days of sale.

If the heifer is open within those thirty (30) days, it is the responsibility of the buyer to contact the seller and settle the matter.

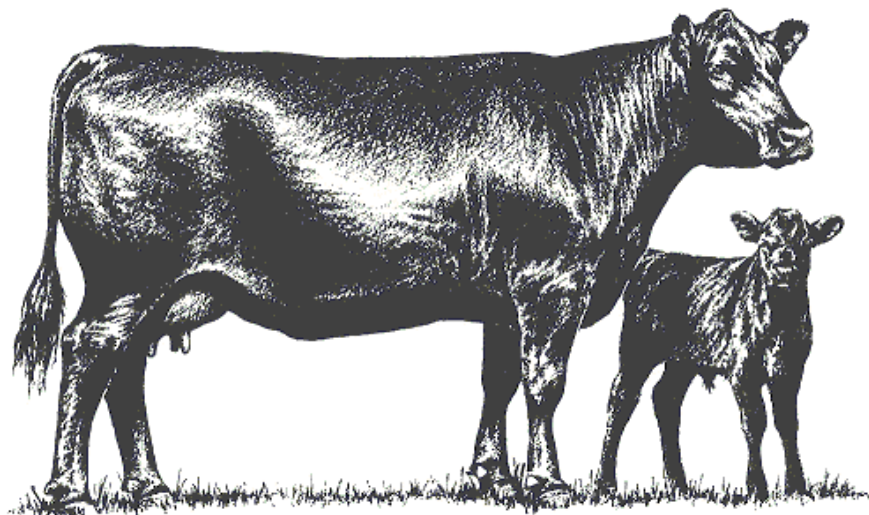

Welcome to the Central Kentucky “Top of the Crop” Replacement Heifer Sale sponsored by the Madison County Cooperative Extension Service, the Madison County Beef Cattle Association, and Blue Grass Stockyard of Richmond, LLC. This sale combines the best of Central Kentucky and continues the longevity of previous sales.

The quality of cattle represented here is some of the finest we have offered.

Bred heifers are guaranteed bred for thirty (30) days after the sale.

Each of you are serious about the beef industry or you wouldn't be here today. Cattle such as these represented here can help you in your commercial operation. A sound evaluation of your breeding needs and your cattle program will help make this possible.

**Good luck to each of you in your cattle endeavors.**

# Replacement Heifer Program

## Minimum Requirements

- Ownership:** (Must meet the following requirements)  
*Bred Heifers*
1. All bred heifers should be bred to calving ease bulls based on their EPD's and the EPD's of the service sire must be provided at the time of sale.
  2. All bred heifers must be owned by the consignor at the time of breeding.
- Vaccination:** Heifers have been vaccinated for IBR, PI-3, BVD, BRSV, Hemophilus somnus, Leptospirosis, Vibriosis, Brucellosis, and 7 strains of Clostridia. **Various products may be used provided label recommendations concerning booster vaccinations are adhered to.** Vaccines, including boosters must be administered between 6 months and 2 weeks prior to sale date. \*\* Heifers are negative for BVD-PI \*\*
- Parasite Control:** All heifers must be treated for internal and external parasites within 45 days of sale. Products for internal parasite control must have a label claim for all stages of the parasite life cycle.
- Surgery:** Heifers must be polled or dehorned and completely healed by sale day.
- Implants:** It is recommended that heifers not be implanted. If heifers are implanted, it is required that only an FDA approved product for replacement heifers be used and then strictly according to label guidelines.

## **On farm**

### **Inspection:**

Heifers will be screened on the farm of origin prior to sale by a certified screening committee for frame, muscle, structural soundness and general sale acceptability. All heifers must meet a minimum projected frame score of Medium using the USDA system for grades of cows (Medium = a mature weight of 900 to 1100 pounds with .2 inches of backfat at the 12th rib). Heifers must meet a muscle score of 1 using the USDA feeder cattle scoring system.

### **Reproductive**

#### **Traits:**

All bred heifers must be pregnancy checked and certified to be safe in calf on or before the day of sale. If a bred heifer is proven by veterinary exam within 30 days after sale to be open, the consignor will replace the heifer or make a financial settlement with the buyer. All heifers must have had a yearling pelvic measurement of 150 square centimeters or greater, and/or at 18 months old a pelvic measurement of 180 square centimeters.

#### **Body Weight and Condition:**

All heifers must have a minimum body condition score of 5 on sale day.

#### **Blemishes:**

Heifers with active cases of Pinkeye or scars resulting from Pinkeye that are considered to be detrimental to vision will not be eligible for sale.

### **Sire**

#### **Requirements:**

Bred heifers must have been serviced by bulls of known ID and breed. All sires used have EPD's and only calving ease sires for the breed represented have been used.

#### **Certification:**

All heifers must be eartagged with the Certified Replacement Heifer eartag and accompanied to sale with a signed and completed Certified Replacement Heifer certificate. All consignments must have an Official Health Certificate.
